

COMPRESSOR
PARTS & REPAIR

Features & Benefits

No Glycerine/water mixture

- **Fewer leak points and hassles, less maintenance**

Pyrex™

- **Easy monitoring of lubrication flow rate**

Consistent, precise drop size and flow rate

- **Eliminates the over-lube tendencies that waste expensive oil and cause safety problems**

Easy to install and 100% interchangeable

- **Direct replacement of original equipment for Ingersoll-Rand reciprocating compressors and operates with all lubricants**

Sight feed is non-pressurized

- **Safer operation with fewer leak points**

Manual priming

- **Eliminates use of lubricator box hand crank for easier installation**

Lubricator Pump

For Ingersoll-Rand® Compressors

Fine quality CECO parts for your Ingersoll-Rand® compressor!

CECO engineers, with the use of vacuum technology, have designed a revolutionary pump that eliminates the need for Glycerin/water mixture, along with the problems of constant leaking and inconsistent flow rates inherent with factory installed pumps.

Pumps for 30 days - FREE!

Delivering superior products and services to the gas transmission, gas processing & petrochemical industries since 1964.
